EDUCATION

Netaji Subhas University of Technology

B.Tech in Computer Science — CGPA: 8.04

Dwarka, Delhi

Nov 2022 – May 2026

School Of Excellence

12th Standard — Percentage: 95%

Kalkaji, Delhi

Apr 2020 – Mar 2021

Cosmos Public School

10th Standard — Percentage: 91%

Delhi

Apr 2018 – Mar 2019

EXPERIENCE

Software Engineer

Jan 2026 – Present

NuvertOS (Timestream Technologies Pvt. Ltd.)

Noida

- Promoted from **Software Engineer Intern** to **Software Engineer** following successful completion of the 6 month internship.
- Engineered and enhanced 8+ ERP modules across accounting, invoicing, and inventory management systems using **Golang (Gin), Angular, Node.js, MySQL, and REST APIs**, enabling financial reporting, transaction processing, inventory tracking, and multi-tenant business operations.
- Architected normalized database schemas and ER diagrams for newly introduced ERP workflows, reducing data redundancy and improving integrity across multi-tenant accounting and inventory systems.
- Implemented **USD Invoice support in PSP forms** and introduced **multi-subsidiary report filtering** functionality, enabling consolidated financial reporting across 50+ business entities.
- Automated **business-critical reporting workflows** in PHP and Node.js, including an Order-to-Delivery TAT Report that eliminated manual report consolidation and reduced manual reporting effort by 70%.
- Enhanced Product Master functionality by introducing configurable **Item Code management** across 10,000+ inventory records and refactored SQL queries to improve **reporting efficiency** and **data retrieval performance**.

Backend Developer Intern

Jun 2025 – Jul 2025

GoReach

Remote

- Engineered and upgraded **10+ FastAPI** endpoints powering AI-driven content generation workflows, improving API responsiveness and database interaction efficiency.
- Built scalable backend services for **personalized LLM-driven content** generation, integrating AI models and APIs to automate content creation and support the generation of 1,000+ AI-powered content outputs.

PROJECTS

NextHire AI | Next.js, React.js, PostgreSQL, Drizzle ORM, Google Gemini API, Clerk

- Built an **AI-powered mock interview platform** generating 100+ role-specific interview questions and automated answer evaluations using **Google Gemini API**, reducing manual interview preparation effort.
- Streamlined secure **authentication with Clerk** and developed a type-safe backend using Drizzle ORM and PostgreSQL, supporting storage and retrieval of 500+ interview responses.

RAGnostic AI | Python, FastAPI, Lang-Chain, Vector Search, LLM Orchestration

- Architected a **Retrieval-Augmented Generation (RAG)** system using FastAPI and vector search, enabling context-aware querying across 500+ document chunks with improved response relevance.
- Pioneered semantic retrieval pipelines with document chunking, embedding generation, and query routing, processing 1,000+ text chunks to improve retrieval accuracy and response quality.

Dragonfly | Python, IoT, REST APIs, Google Maps API

- Programmed an IoT-enabled drone-based pollution monitoring system for **SIH 2024** integrating 5+ environmental sensors and Google Maps API, enabling real-time air-quality monitoring and geospatial visualization.

TECHNICAL SKILLS

- **Programming Languages:** Go, Python, JavaScript, TypeScript, C++, SQL
- **Backend:** Go (Gin), FastAPI, Node.js, Express.js, REST APIs, Microservices
- **Frontend:** Angular, React.js, Next.js
- **Databases:** MySQL, PostgreSQL, MongoDB
- **AI / ML:** RAG Systems, LLM Orchestration, Agentic AI (familiar), LangChain, Gemini / OpenAI APIs
- **Tools & Cloud:** Docker, Git, Bitbucket, Postman, Linux, AWS
- **Relevant Coursework:** System Design, DSA, Multi-Tenant Architectures, Microservices, Agile/Scrum

ACHIEVEMENTS & LEADERSHIP

- **Smart India Hackathon 2024** – Top 25 university teams nationally.
- Solved **850+ algorithmic and SQL problems** across LeetCode and competitive programming platforms.
- **President, National Service Scheme (NSS)** – Led volunteer programs and cross-functional teams of **120+ members**.
